

Zeta::GeneralLoop

```
graph BT; ZetaMainLoop[Zeta::MainLoop] --> ZetaGeneralLoop[Zeta::GeneralLoop];
```

The diagram illustrates a class hierarchy. At the bottom is a white rectangular box with a black border containing the text "Zeta::MainLoop". A vertical blue line with a triangular arrowhead at the top connects this box to a gray rectangular box with a black border at the top, which contains the text "Zeta::GeneralLoop". This indicates that Zeta::MainLoop inherits from Zeta::GeneralLoop.
